

ULTIMATE

MARVIN SIGNATURE™ COLLECTION

THE MARVIN PORTFOLIO

Inspired by how people live, the Marvin portfolio is organized into three product collections—defined by the degree of design detail and customization opportunities. Our thoughtful solutions provide exceptional performance, energy efficiency, low maintenance, and quality you can see, feel, and touch, making it easy to bring your vision to life.

MARVIN SIGNATURE™ COLLECTION

Previously known as Marvin Windows and Doors
Includes Ultimate and Modern product lines

Featuring the Ultimate and Modern product lines, the Marvin Signature collection offers the broadest range of product types, sizes, configurations, and design options. Every detail is considered, delivering the highest level of architectural correctness and unrivaled appeal.

← LEVEL OF DESIGN DETAIL AND CUSTOMIZATION

More Flexible

MARVIN ELEVATE™ COLLECTION

Previously known as Integrity Wood-Ultrex

The Elevate collection is thoughtfully designed to offer specifically-chosen features and options to help make your vision a reality. Warm wood interiors with strong, durable, Ultrex® fiberglass exteriors, provide the ideal combination of beauty and strength.

MARVIN ESSENTIAL™ COLLECTION

Previously known as Integrity All Ultrex

The Essential collection makes it easy to achieve design and quality with clean lines, streamlined options, and powerful performance. Strong, durable, Ultrex fiberglass interiors and exteriors mean windows and doors that are virtually maintenance free.

LEVEL OF DESIGN DETAIL AND CUSTOMIZATION →

More Streamlined

Marvin Signature™ collection

REDEFINING THE STANDARD

Part of the Signature collection, our Ultimate product line unites beautiful design with exceptional craftsmanship. Add character to almost any space with our most extensive selection of shapes, styles, sizes, and options—including wood interiors protected by tough aluminum exteriors. With nearly limitless opportunities for customization, Ultimate can match your vision—and give it room to grow.

Casement windows in Bronze with Oil Rubbed Bronze hardware

About Us

At Marvin, we're driven to imagine and create better ways of living, helping people feel happier and healthier inside their homes. We believe that our work isn't just about designing better windows and doors—it's about opening new possibilities for the people who use them.

WINDOWS

Awning and Picture windows in Ebony

WINDOW TERMS AND DEFINITIONS

- 1. FRAME**
There are three components to the frame: the header across the top, the jambs down each side, and the sill across the bottom. Marvin frames are built strong with a variety of high-quality wood species.
- 2. GLAZING**
The glass in a window is called glazing. Marvin’s broad range of glazing options can meet both high-performance and refined aesthetic requirements.
- 3. LITE**
Each area of glass is called a lite. Marvin offers divided lite patterns for whatever look you wish to create.
- 4. HARDWARE**
Marvin uses only the highest quality locks, handles, hinges, lifts, and pulls—in a wide variety of durable finishes.
- 5. SASH**
The sash—operating or stationary—is comprised of horizontal rails, vertical stiles, and glazing. Marvin’s large solid sashes offer precise fit and ease of operation.

WINDOW OPERATING STYLES

DOUBLE HUNG
Double hung windows have two movable sash which operate vertically.

CASEMENT
A window that is hinged to its frame at the side and opens like a door.

GLIDER
A window with sash that slides horizontally to open and close.

AWNING
An awning is hinged to the frame at the top and opens outward. If hinged on the bottom, it’s called a hopper.

FIXED
An inoperable window with direct glaze or in-sash configurations. Available in a wide range of polygon and radius shapes.

TILT TURN
A European-style, dual function window that can swing in like a casement or open at the top like a hopper.

MORE FLEXIBILITY TO MEET ANY DESIGN CHALLENGE.

Marvin has an extensive selection of styles, sizes, shapes, and options.

DOUBLE HUNG WINDOWS

Marvin double hung windows combine state-of-the-art design with classic style. Advanced engineering and high-quality construction make our double hung windows incredibly durable, versatile, and easy to use.

ULTIMATE DOUBLE HUNG G2

Double Hung G2 window with Oil Rubbed Bronze hardware

Double Hung G2 windows in Ebony

ULTIMATE DOUBLE HUNG G2

The Ultimate Double Hung G2 window is an embodiment of our dedication to the craft of creating windows and doors. Influenced by the rich, historical significance of this window style and inspired by innovative design, each feature is thoughtfully added and every detail is carefully considered. This is all in service of shaping a window that deserves to be in the unique homes our customers desire.

INTERIOR

EXTERIOR

WASH MODE WITH SASH LOCK IN ANTIQUE BRASS

ULTIMATE DOUBLE HUNG G2

Engineered for performance and designed to inspire, each aspect of the Ultimate Double Hung G2 window was made with purpose. Our engineers consider every detail from the most innovative features to the most minute subtleties, all because the windows in your home help illuminate the most important parts of your life.

INTERIOR FEATURES AND PERFORMANCE

RICH WOOD INTERIOR

Offers beauty and warmth with six wood species and ten interior finish options.

NARROW CHECKRAIL

Provides a sleek aesthetic at 1 15⁄16 inches to maximize daylight opening while maintaining historical accuracy.

TILT WASH

Allows easy access to exterior glass for cleaning and maintenance.

RETRACTABLE SCREEN

A screen option that easily retracts out of sight when not in use and provides smooth, quiet operation.

INTERIOR SHADES

Integrate seamlessly into the window without visible cords or pulleys. The fit is precise with virtually no light bleed.

EXCLUSIVE AUTOLOCK

Activates when the sashes are closed, locking the window.

FIRST-RATE ENERGY EFFICIENCY

Meets ENERGY STAR® standards in energy efficiency with multiple glass options for various regions, climates, and weather needs.

SASH BALANCE SYSTEMS

Enables smooth operation at the largest sizes.

EXTERIOR FEATURES AND PERFORMANCE

DURABLE CLADDING

Exterior cladding made with the industry's highest level of certification, AAMA 2605, extruded aluminum and backed by a 20-year warranty against chalking and fading.

EXPANSIVE SIZES

Larger than 5 feet wide by 10 feet high.

TRADITIONAL SILL BEVEL

The 14-degree bevel provides optimal water management while maintaining a classic look.

SUPERIOR WEATHER PERFORMANCE

LC-PG50 on most sizes. Optional commercial (CW) performance and IZ3 certified coastal performance on most sizes.

DESIGN VERSATILITY

An array of simulated divided lite patterns, interior and exterior color options, ten hardware finishes, and archtop models.

ALUMINUM INTER-LOCK

Eliminates drafts and improves the window's overall structural integrity.

ULTIMATE DOUBLE HUNG ROUND TOP G2

The Ultimate Double Hung Round Top G2 window will add traditional arching and elegant lines to your home or historic preservation project. With the same features and grace of the Ultimate Double Hung G2 window, this window offers design flexibility with numerous variations of radius shapes. Choose from multiple divided lite patterns to further enhance the arch of the window. These versatile windows—available in a wide range of sizes—can provide a subtle accent or a dramatic focal point to enhance your home design.

ROUND TOP VARIATIONS

EYEBROW AND HALF EYEBROW RADIUS OPERATING DOUBLE HUNG

A classic look with a gentle eyebrow radius. Beautiful as a stand alone window or as part of an assembly.

HALF CIRCLE TRANSM

This simulated half circle transom window can be sized to stand alone or easily fit above a double hung window.

EYEBROW TRANSM AND PICTURE

This stationary window is available as a transom or picture window. These windows are designed to complement the Ultimate Double Hung G2 window with correlating sizes and matching springline.

HALF CIRCLE RADIUS OPERATING DOUBLE HUNG

A dramatic window with a true half circle arch. The look gives a beautifully smooth transition from jamb to header. Both sash are operable.

ASYMMETRIC CURVE OPERATING SINGLE HUNG

This striking window style adds elegant curve to a two-wide window assembly (not shown).

ULTIMATE DOUBLE HUNG INSERT G2

Double Hung Insert windows with Satin Nickel hardware

Double Hung Insert G2 windows with Matte Black hardware

ULTIMATE DOUBLE HUNG INSERT G2

The Ultimate Double Hung Insert G2 window adds quality craftsmanship, beauty, and energy efficiency to your home without compromising architectural integrity. Its frame-in-frame design is built precisely to seamlessly fit into your unique window opening, so there's no need to remove the existing frame or disturb the exterior or interior trim of your house. Ultimate Double Hung Insert G2 windows always fit into your existing space and appear completely integrated into your home.

SASH LOCK IN SATIN NICKEL

ULTIMATE SINGLE HUNG G2

Single Hung G2 window with Traditional Lift Lock in Satin Chrome

Single Hung G2 windows with Contemporary Lift Lock in Brass

ULTIMATE SINGLE HUNG G2

A contemporary classic, the Ultimate Single Hung G2 window blends traditional beauty and state-of-the-art performance. With the top sash stationary and the bottom sash operable, a single hung style is often preferred in a cottage-style window with a small top sash that doesn't need to open. Reliable and energy efficient, the Ultimate Single Hung G2 window offers an auto-lock feature for convenient security, durable hardware for smooth operation, and Marvin's unique Wash Mode for easy cleaning. Customize your design with round top styles or optional Lift Lock, Marvin's exclusive bottom rail locking mechanism for easier operation in hard-to-reach areas.

CASEMENT + AWNING WINDOWS

Marvin casements and awnings are innovative, high-performing windows. Delivering exceptional versatility, streamlined sightlines, and clean profiles, these state-of-the-art windows are designed to suit virtually any application.

Casement and Awning windows with Satin Nickel hardware

ULTIMATE CASEMENT STYLES

Casement and Picture windows with Satin Nickel hardware

FULL FRAME OR NARROW FRAME

The Ultimate Casement and Ultimate Casement Narrow Frame windows are the most versatile and innovative casement windows ever produced. Featuring concealed multi-point locks, a patented Wash Mode, and durable hardware that operates smoothly even at the largest sizes.

ULTIMATE CASEMENT

A recessed sash for a traditional look, plus a full jamb offers design flexibility for new construction or full frame replacement.

ULTIMATE CASEMENT NARROW FRAME

A flush sash to the exterior and narrow jamb depth make this window an easy choice for frame-in-frame replacement or more contemporary new construction applications.

ULTIMATE CASEMENT
4 7/16" FULL JAMB

ULTIMATE CASEMENT NARROW FRAME
2 3/16" NARROW JAMB

JAMBS + PROFILES

The Ultimate Casement has a recessed sash for a traditional or historic look. The Ultimate Casement Narrow Frame has a flush-to-frame sash for a contemporary look.

ULTIMATE CASEMENT EASY WASH MODE

With engineering that is only matched by its timeless design, the Ultimate Casement window brings light and air to your home in the easiest, most beautiful ways. The Ultimate Casement operates in a way so revolutionary that we've patented it, making Marvin the only place you'll find it. The hardware allows access to both sides of the glass from the inside of your home, making window washing stress and ladder free.

REVOLUTIONARY WASH MODE

- 1. Crank the handle twice.
- 2. Push down on the hardware arm, and push the window away. Then crank the arm back.
- 3. Swing the window all the way open, pulling it across toward the lock for accessibility to exterior glass.

ULTIMATE CASEMENT FEATURES + OPTIONS

RETRACTABLE SCREEN

When a screen is needed, simply glide the retractable screen across the window to put the screen in place. Opened or closed, the screen effortlessly integrates into the jamb of the window.

MULTI-POINT LOCKING SYSTEM

Multi-point locking mechanisms make large casements easy to operate, and enhance performance.

ENDLESS DESIGN OPTIONS

A variety of divided lite patterns, including a double hung look make energy-efficient casements the perfect replacement window in older homes.

LARGE SIZES OPEN WITH EASE

We have developed the most durable hardware in the industry, which provides easy opening and smooth operation on even the largest casements.

WINDOW OPENING CONTROL DEVICE

Limits the casement sash opening to 4 inches or less when engaged. The release mechanism allows for operation beyond 4 inches. This option meets the ASTM F2090-10 standard.

FRICTION LIMITER

Flip a lever to lock the sash securely in place at multiple set angles, allowing you to open your window on windy days. Available for push out only.

ENDLESS OPTIONS TO DESIGN
MORE OF WHAT YOU IMAGINE.

ULTIMATE CASEMENT

Casement and Picture windows with Satin Nickel hardware

Casement windows with Matte Black hardware

ULTIMATE CASEMENT

The Ultimate Casement window is offered in some of the largest sizes in the industry, with a secure multi-point lock, durable hardware that ensures smooth operation, and Marvin's exclusive Wash Mode for easy cleaning—even on upper floors. With many design options, including round top shapes, the Ultimate Casement window flexes to fit your vision and can be sized to complement the most expansive views.

ULTIMATE CASEMENT INSWING

ULTIMATE CASEMENT INSWING

The Ultimate Casement Inswing window complements classic architectural styles. Inswing casements are particularly desirable where an outswing window would interfere with a patio, deck, or outdoor walkway. The Ultimate Casement Inswing can open from 90 to 180-degrees, so it is completely out of the way when open. Also available in a French Casement Inswing for a wide view with no center post to spoil the scenery.

INSWING HARDWARE IN OIL RUBBED BRONZE

ULTIMATE CASEMENT ROUND TOP

ULTIMATE CASEMENT ROUND TOP

The Ultimate Casement Round Top window is a great choice for designs that require large unobstructed views and the elegance of an arched shape. You can select from numerous round top shapes for design flexibility. The window can be used alone as a focal point or in combination with other windows.

ROUND TOP VARIATIONS

HALF CIRCLE RADIUS OPERATING CASEMENT
A dramatic window with a true half circle arch. The look gives a beautifully smooth transition from jamb to header.

HALF CIRCLE RADIUS OPERATING FRENCH CASEMENT
This striking window style adds an elegant curve to a double sash window with no center post for a wide-open view.

EYEBROW RADIUS OPERATING CASEMENT
A classic look with a gentle eyebrow radius. Beautiful as a stand alone window or as part of an assembly.

TRANSOM
Stationary windows with either eyebrow or half circle arches can be sized to stand alone or easily fit above a casement.

ULTIMATE AWNING

Awning and Picture windows and Sliding Patio doors

Awning and Picture windows in Ebony

ULTIMATE AWNING

A top-hinged alternative or complement to a casement window, the Ultimate Awning window is designed for performance and quality. With industry-leading sizes, the Ultimate Awning can be used on its own as a convenient option for hard to reach areas like over a sink or counter, or as a complement to adjacent windows, allowing fresh air access.

ULTIMATE PICTURE

Casement and Direct Glaze Picture windows

Picture and Awning windows in White painted interior finish

ULTIMATE PICTURE

The Ultimate Picture window offers a classic style in a non-operable window, bringing natural light into a room or highlighting an unobstructed outdoor view. Durable and energy efficient, it can be sized to match accompanying double hung, single hung, or casement windows. An aluminum-clad exterior provides durability and flexible finish options, or an all-wood option is ideal for historic renovation projects where a wood exterior is needed to match original architectural details.

DIRECT GLAZE PICTURE WINDOW

IN-SASH PICTURE WINDOW

DIRECT GLAZE
Direct glaze refers to a window with no sash. The glass is glazed directly into the frame and is stationary.

IN-SASH
In-sash windows are non-operable, and they can match the profiles of windows with operable sashes.

ULTIMATE PICTURE NARROW FRAME

ULTIMATE BAY + BOW

Bay window

Bow window

ULTIMATE BAY

Ultimate Bay windows are a group of connected windows extending outward from a room at desired angles—allowing light and views from multiple directions. Some feature a larger operating or stationary window flanked by smaller windows. Ultimate Bay windows can create space indoors for a cozy nook or window seat, or maximize a scenic view to serve as a room’s focal point.

INTERIOR BAY WITH ULTIMATE CASEMENT AND PICTURE WINDOWS

ULTIMATE BOW

Ultimate Bow windows are a series of windows connected to form a gentle outward curve. Typically made up of four or more windows, Ultimate Bow windows can create a small nook, open up a view, bring in more light, and boost visual appeal from inside and out. Bow windows are available with casement, double hung, or picture windows.

INTERIOR BOW WITH ULTIMATE CASEMENT AND PICTURE WINDOWS

DOORS

Multi-Slide doors in Bronze

DOOR TERMS + DEFINITIONS

1. FRAME
The door frame includes the head jamb across the top, side jambs and the sill at the bottom. Marvin frames are built strong to stand up to heavy door usage year after year.

2. RAIL
The horizontal wood members of a door are called rails, the vertical components are called stiles. The bottom rail on a French door design is about 8 inches high, harmonizing with traditional design preferences. On other doors, narrow bottom rails match 4 ¾ inch stiles for a clean, uncluttered appearance.

3. SILL
Our door sills are made of Ultrex®, pultruded fiberglass based materials that are virtually impervious to time, weather, and pressure. Ultrex door sills provide excellent performance in hot or cold climates, plus durability over the long haul by being resistant to warping, denting, and fading.

4. PANELS
In a door, the panel is the main section, operating or stationary, that is installed into the frame. Marvin doors come in many sizes, some of the industry’s largest, but all share the tight tolerances for fit and quality finishes.

DOOR OPERATING STYLES

OUTSWING DOOR
Single or double swinging doors open to the exterior.

INSWING DOOR
Single or double swinging doors open to the interior.

SLIDING DOOR
Save space with a door panel that operates by sliding along a track.

BI-FOLD DOOR
This door folds to the side and can include up to sixteen panels.

LIFT AND SLIDE DOOR
For openings as large as 48 feet wide and 12 feet high, substantial door panels fully open into pocket or stacked configurations.

MULTI-SLIDE DOOR
Another option to blend interior and outdoor living with a modular frame system.

MAKE EVERY ENTRANCE GRAND

Marvin doors are designed to maximize the potential of any opening, view, and living space.

DOOR FEATURES + OPTIONS

BEAUTY WITH PERFORMANCE

Designed for durability and to minimize air and water infiltration. Many of our door products are certified to a light commercial rating of PG40, which means longevity and performance over time.

SOLID WOOD PANELS + FRAMES

The sound of a Marvin door closing is a quiet statement of quality. Wood in the panels and frames make for an elegant, crafted look and feel, and provide a weather-tight closure for outstanding energy efficiency.*

MULTI-POINT LOCKING SYSTEM

Concealed stainless steel head and foot bolts within the door secure it solidly at three points. Choose either a keyed or non-keyed lever handle. Multi-point lock comes standard.

ADJUSTABLE HINGE

Standard on swinging doors, an adjustable hinge makes it easy to fine-tune the fit of a swinging door over the door's lifetime. Available in a variety of finishes, plus coastal options.

LOW PROFILE SILL

This innovative sill option provides for a smooth transition between exterior and interior living spaces, and meets ADA compliance. Compatible with both wood and clad Ultimate Sliding French and Ultimate Sliding Patio doors.

RAISED AND FLAT PANELS

Raised and flat panels add depth and style to sliding and swinging French doors, including arch top swinging doors. Available in wood or clad, this option changes the overall aesthetic of your door when less than a full lite of glass is desired.

ULTIMATE SWINGING FRENCH DOOR

Inswing French door with Matte Black hardware

Swinging French door and Picture windows

ULTIMATE SWINGING FRENCH DOOR

The Ultimate Swinging French door combines a classic single- and double-panel French style with expert craftsmanship. Engineered for both quality and performance, this door features a beautiful, substantial wood surround and a durable sill for weather protection even in harsh climates. To maximize views and access to the outdoors, select from inswing or outswing operation in sizes up to 14 feet wide and 9 feet high, and if a more streamlined look is desired, choose our short bottom rail option with sleek 4 ¾ inch wood surround on all sides.

ULTIMATE BI-FOLD DOOR

The Ultimate Bi-Fold door, provides big glass and clean design aesthetics to give homeowners more flexibility and a deep indoor-outdoor connection. Spanning 55 feet in width, the Ultimate Bi-Fold door is one of the widest panel doors in the industry. Without question, the Marvin Ultimate Bi-Fold door is a simple, elegant solution for adjoining interior spaces or connecting to the outdoors. Available with a wood or clad exterior.

LOW PROFILE SILL

SILL OPTIONS

Choose from performance, low profile, and floor channel sill options.

INTERIOR PANEL HANDLE

The interior panel handle features a minimalist design that smoothly operates folding panels with a 90-degree twist and latches at the head and sill.

ULTIMATE LIFT AND SLIDE DOOR

Lift and Slide door with custom stain

Lift and Slide door with custom stain

ULTIMATE LIFT AND SLIDE DOOR

With openings up to 48 feet wide and 12 feet high, now you can add acres to your floor plan. Available with pocket panels that slide into the wall, completely disappearing from view, or stacked panels that slide and stack perfectly within the door frame for a seamless transition from outside to inside. Both are available with exclusive flush mount handles and exterior finger pulls that virtually disappear when not in use.

INTERIOR

HARDWARE OPTIONS

Available with exclusive flush mount hardware, interior finger pull, and optional exterior finger pull.

POCKET AND STACKED OPERATION

When open, panels either stack neatly or slide into the wall cavity. They glide on the inconspicuous 3/16 inch high exposed track.

WOOD SPECIES

Offering a rich, warm look, many custom options, and design versatility, wood is a premium choice. Wood can be used on both the interior and exterior of a window or door. As a lower maintenance option, wood can also be used on only the interior with an extruded aluminum cladding exterior. Marvin offers both options, leading the industry in sourcing, processing, and utilizing high quality wood.

STAIN + PAINT

When compared to painting or staining on the job site, factory-stained finishes offer consistent quality and performance resulting from our expertise with wood as a material and years of perfecting our staining process. Painting on the job site or scheduling off-site finishing is an extra step that takes time and coordination. Choose our painted interior finish option on any Marvin windows and doors with a wood or clad exterior for a factory-painted option that arrives ready to install.

* Stain colors shown on Pine. To see more about finishes visit Marvin.com.

CUSTOM COLOR: ANY COLOR YOU WANT

EXTRUDED ALUMINUM

Extruded aluminum is an extremely tough cladding that protects wood windows, mimics the profiles of wood, and provides superior durability. It is the most commonly ordered Marvin material.

Select a color from our palette of 19 durable extruded aluminum colors, including a spectrum of rich hues and three pearlescent finishes. If you have more specialized needs, we can also work with you to create a custom color.

WOOD SPECIES

Wood is a premium material for windows and doors, offering classic aesthetic appeal, many options for customization, and design versatility.

We treat exposed millwork with a water repellent wood preservative to help it last longer. Choose from one of the four options below. Each is ready to be finished to match your project’s exacting requirements.

INTERIOR SHADES

Sliding French door in Pine with Honey Stain and Driftwood Shades

INTERIOR SHADES

Designed for Marvin Signature Ultimate products only, our shades are fully integrated, matching any current Marvin interior finish and appearing as a seamless part of the window or door. Functionally graceful, there are no visible cords or pulleys. There's no need for after-market retailers when you choose shades from Marvin. It's a one-stop shop—you don't even need to measure for installation. Adding beauty and functionality to a home through integrated shades is now possible.

INTERIOR SHADES SHOWN IN LIGHT-FILTERING ALMOND

* Denotes colors are also available in blackout fabric.
Note: Interior Shades are available in the United States and Canada.

EXTERIOR CASINGS + SUBSILLS

Brick Mould Casing and special subsill with custom mull cover in Hampton Sage

EXTERIOR CASINGS + SUBSILLS

Adding Marvin clad or wood casings and subsills to your windows and doors provides great architectural detail to any home. Our clad casings are made of ultra-durable extruded aluminum, which features a beautiful factory applied finish that resists chalking, fading, pitting, corrosion, and marring. Casing profiles are consistent around a window or door, except for the Potter casing profile, which has a taller head. Custom casings and subsills are also available.

DIVIDED LITES

Casement windows with custom Simulated Divided Lites

DIVIDED LITES

The look of multiple, individual panes of glass in a window sash is popular in a wide range of architectural styles—from historic replications to modern farmhouses. For those who seek historical accuracy, authentic divided lites utilize many individual glass panes in a single window. Simulated divided lites, available in a number of different styles, mimic the look of individual panes of glass in a window sash without sacrificing the energy efficiency of a single pane of glass. Our custom capabilities allow us to create almost any divided lite pattern to match your design style.

SIMULATED DIVIDED LITE (SDL)
SDL bars are permanently adhered to both sides of the glass. Simulated Divided Lites with Spacer Bars (SDLs) are an energy-efficient way to create the look of authentic divided lites.

AUTHENTIC DIVIDED LITE (ADL)
Separate panes of glass are glazed between bars—the way windows have been made since the beginning. Available exclusively with wood exterior units.

GRILLES-BETWEEN-THE-GLASS (GBG)
Grilles are permanently installed between the glass panes. This low-maintenance grille offers the look of a divided lite pattern with the ease of cleaning just one pane of glass. Available with different interior and exterior colors.

FIVE STANDARD BAR WIDTHS

STICKING AND PROFILES

Sticking refers to the interior profiles of your wood window. Choose from the standard Ogee profile (used on traditional projects) or the optional clean, contemporary Square sticking.

OGEE

SQUARE

SQUARE STICKING

GLASS + GLAZING

Awning and Picture windows and Outswing French door

DUAL PANE GLAZING
Our standard glazing is dual pane: two panes of glass with Low E coatings and insulated with argon gas. Compared to a single glass pane, dual pane glass cuts energy costs significantly because of low emissivity coating and the gas filled insulating space between the glass layers.

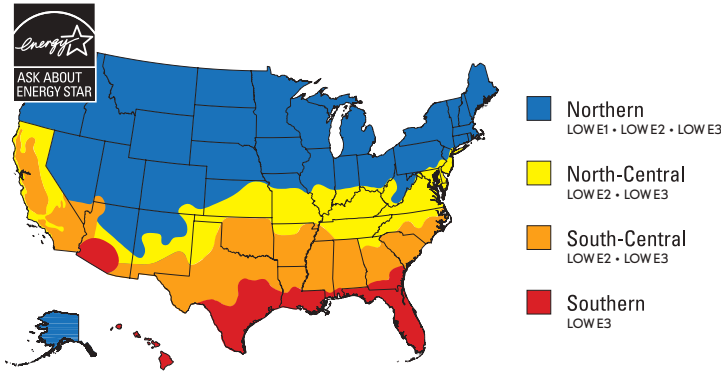

TRIPLE PANE GLAZING
Triple pane glazing consists of three panes of glass with Low E coatings applied to the surface. Two glass spaces are insulated with argon gas between the panes. Available in products where glazing thickness can be wider than ¾ inch.

GLASS + GLAZING

The thermal and structural properties of wood combined with the right glazing make Marvin wood and clad-wood products an optimal choice for energy efficiency. We offer thousands of window and door options with two or three panes of glass and a range of glazing options to meet the performance challenges of any climate.

GLASS COATINGS

Low E coatings are microscopically thin, essentially invisible coatings on the glass surface that help manage the amount of light and heat conducted through a window pane or reflected away from it, reducing a home's dependence on heat and air conditioning. The national ENERGY STAR® program recognizes products that meet strict energy-efficiency guidelines to suit climates in different areas of the country, and Marvin offers products to meet climate and code requirements in every region.

LOW E1
Low E1 coating is a good choice when you want maximum solar heat gain and radiant heating properties. This type of coating is generally used in Northern climates where heating is prioritized over cooling. You'll reap maximum benefits when windows with this type of coating are positioned to receive direct sun exposure.

LOW E2
The most common Low E coating since it works well across most geographic regions and climates. Low E2 with two metallic coatings balances less solar heat gain and improved radiant heating properties.

LOW E3
Used in applications where solar heat gain may be a concern, low E3 coating uses multiple metallic layers for radiant properties similar to Low E2. This type of coating is most commonly used in Southern, sunny climates where cooling is prioritized over heating.

SPECIALTY GLASS

Our specialty options include glass for unique project needs like sound abatement (STC/OITC), high altitudes, Sea Turtle Conservation Codes, and California fire zones. We also offer laminated glass on certain products that's designed specifically for hurricane zones.

A variety of decorative glass options are available to meet the unique needs of each project. Laminated glass is also available in clear, bronze, gray, or green with tinted interlayers.

WINDOW SAFETY

Casement windows with Window Opening Control Devices

Picture and Casement windows with Window Opening Control Devices

WINDOW OPENING CONTROL DEVICES

Marvin Window Opening Control Devices (WOCD) meet the ASTM F2090-10 standard, created to assist in the prevention of window falls in children under five years old. To meet the standard, our devices limit the window's net clear opening to 4 inches or less when the sash is opened and have a release function allowing the window to operate. In order to meet the safety standard, WOCD disengagement takes two independent actions, which helps prevent accidental release. Devices will then automatically reengage once the window is closed and again limit the window opening to 4 inches upon re-opening.

ULTIMATE CASEMENT

ULTIMATE DOUBLE HUNG G2

ULTIMATE GLIDER

HOME AUTOMATION

Casement windows and Sliding French door with concealed Lock Status Sensors

SLIDING DOOR AUTOMATIC CONTROL

Even though a large Ultimate Multi-Slide door slides open or closed with surprising ease, Marvin now offers an option for automated operation. A motorized system can be activated with easy-to-use touchpad controls. Prompt the quiet, motorized system with wall mounted touch pads or hand-held remote. The Sliding Door Automatic Control can easily be adapted to interface with home automation systems and smart phone technologies.

LOCK STATUS SENSOR

Lock Status Sensor brings smart home capabilities to Marvin windows and doors. This affordable solution is installed in the factory and fully concealed—meaning no unsightly sensors attached on the exterior or interior, and no additional modification of your product once installed. The sensor can be wired or wirelessly connected, working in tandem with your smart home security system to indicate if windows and doors are closed and locked or unlocked, providing peace of mind when security is a concern.

SCREENS

Double Hung Insert G2 windows with Full Screens

SCREENS

Choose from an aluminum surround in three finishes or a wood interior surround that complements warm wood interiors and comes factory-prepped for staining and painting. A variety of screen mesh options in aluminum or fiberglass allow for further customization for aesthetics or to ensure you're choosing a mesh that's fine enough to keep even the littlest bugs away.

CASEMENT SCREEN OPTIONS

RETRACTABLE SCREEN
The innovative Retractable Screen from Marvin lets the breeze in and easily retracts out of sight when not in use. A tight seal and a strong adjustable pull bar ensure extraordinary performance. Marvin's unique concealed design makes the screen nearly undetectable when it is in the retracted position.

INSWING CASEMENT SCREEN
The beautifully crafted inswing screen can bring in fresh air along with its classic appearance to standard or round top casement windows.

WOOD SCREEN SURROUND
The patented wood screen surround with Hi-Transparency screen mesh and aluminum exterior creates a seamless wood interior.

SCREEN MESH OPTIONS

DOUBLE HUNG SCREEN OPTIONS

RETRACTABLE SCREEN

The innovative Retractable Screen, available on the Ultimate Double Hung G2 window, is a factory-installed screen that easily retracts out of sight when not in use. The screen can be drawn to rest at one of two stop points, resulting in a seal at either the sill or at the checkrail.

FULL OR HALF SCREEN

Exterior screen with an aluminum surround. The full screen covers both the top and bottom sash. The half screen only covers the bottom sash.

DOOR SCREEN OPTIONS

ULTIMATE SWINGING SCREEN DOOR

Featuring panels of extruded aluminum for a beautiful millwork appearance with traditional shadow-lines, this easy-to-install, easy-to-remove panel system requires no tools and has a clean exterior that blends into the door frame. Classic oval exterior handle and storm insert options are also available.

STANDARD SWINGING SCREEN DOOR

This tough, extruded aluminum swinging screen door matches the door, made of the same thick metal as the cladding. Solid protection and outstanding performance, with die cast handles, automatic closer, and aluminum hinges.

ULTIMATE SLIDING SCREEN DOOR

Aluminum top hung sliding screen with roller bar, adjustable rollers and unmatched sliding operation. The exterior profile replicates the look of a traditional wood screen. Also available in a standard top hung version for Ultimate Sliding French doors, Sliding Patio doors, and Ultimate Inswing doors.

DOUBLE HUNG STORM OPTIONS

TWO-LITE WOOD STORM SASH OR SCREEN

A wood frame containing non-removable glass. The storm sash can be removed during the summer and replaced with a wood framed screen. Available only for wood windows.

STORM AND SCREEN COMBINATIONS

A combination unit is composed of two glass panels and one screen panel that can be easily removed from the interior for cleaning. Available with a wood (bare or primed) or aluminum surround, panels can be configured multiple ways, glass above screen, screen above glass, or glass above glass.

ENERGY PANEL

Often confused with storm windows, an energy panel is technically a glazing option. It is a removable, exterior glass panel finished on the edges by a surround. Energy panels cover the exposed glass surface of each sash and offer added energy efficiency for wood windows with single glazing.

STANDARD SLIDING SCREEN (NOT SHOWN)

Aluminum top hung sliding screen with adjustable rollers and replaceable bottom guide. Available on wood and clad-wood sliding and inswing doors.

TOP-HUNG SCREEN (NOT SHOWN)

Aluminum top hung sliding screens come with adjustable rollers and replaceable bottom guide for flawlessly smooth operation.

SCENIC DOOR SLIDING SCREEN (SHOWN ON LEFT)

The Marvin Ultimate Sliding Screen operates with ease and conceals when not in use. The screen is unobtrusive even in large sizes measuring up to 12 feet wide and up to 10 feet high uni-directional or up to 24 feet wide bi-parting.

WINDOW HARDWARE

Double Hung G2 with Auto-locking Sash Lock in Satin Nickel

WINDOW HARDWARE

Marvin’s durable and elegant hardware is engineered to work seamlessly and to harmonize with any décor. Choose a finish to complement your architectural style. Matte Black, Satin Taupe, Bronze, and White are painted finishes. These durable finishes mimic the look of metal and present a practical alternative. Satin Nickel, Brass, Antique Brass, Polished Chrome, Oil Rubbed Bronze, and Satin Chrome offer the rich appearance and durability of authentic metal finishes.

DOOR HARDWARE

Inswing French door with Contemporary swinging handle in Matte Black

DOOR HARDWARE

Deceptively sturdy, Marvin hardware looks too beautiful to stand up to everyday use. Despite the graceful curves, ergonomic design, and elegant finishes, this door hardware is engineered for durability. Satin Nickel, Brass, and Oil Rubbed Bronze finishes are available with a PVD finish. The Physical Vapor Deposition (PVD) process adds a layer of toughness to hardware exposed to environmental factors like direct sun and humidity. PVD finishes resist fading and discoloration, even in coastal areas.
